#### EPISODIO 2

#### Ejercicio 5 (pág. 35)

##### Script

**Roberto:** Welcome, Tabaré and Mía! I'm Roberto. Let me show you around the farm.

**Mía:** Great!

**Roberto:** Look! Over here, we have the cows and goats. They give us milk.

**Tabaré:** And what about the horses and the donkeys?

**Roberto:** They are strong and help us with heavy work. They also carry loads and work in the fields.

**Mía:** I see pigs over there. What do they do?

**Roberto:** The pigs are raised for their meat.

**Tabaré:** What about the sheep?

**Roberto:** The sheep give us wool. We use it to make clothes.

**Mía:** I see some hens and ducks, too. What do they do?

**Roberto:** They lay eggs. We collect them every day.

**Tabaré:** Wow! That's very interesting. Thanks for all this information!

## EPISODIO 2

### Ejercicio 1 (pág. 38)

#### Script

Tabaré: Hello, everyone! Today, we visited a sustainable farm. First, we looked at the cows and goats. They live in big barns and give milk. Then, we walked to the vegetable patch where they use eco-friendly methods. After that, we watched the hens as they laid eggs. Next, we visited the forestation area. We learned how they plant trees to help the environment. Finally, we looked at the solar panels and windmills that give clean energy to the farm. All these helped us win the Science Fair! We are ready for Curitiba!

## EPISODIO 3

### Ejercicio 1 (pág. 52)

#### Script

Georgina: Welcome to Curitiba! I'm **Georgina**, your tourist guide for today. Let's explore this amazing city together.

First, we start at the Oscar Niemeyer Museum, which is **ON THE CORNER OF** Avenida Presidente Affonso Camargo and Rua Marechal Hermes.

Next, we go to the Botanical Garden, located **IN FRONT OF** the campus of the Federal University of Paraná. There we will take a train ride **INSIDE** this beautiful garden.

After that, we will visit Curitiba Cathedral. It's **OPPOSITE** the City Hall, **BETWEEN** the main streets of the city centre.

Then we will go around the Tanguá Park located **ON THE LEFT** bank of the Tanguá River.

Our final stop is Rua XV de Novembro where we will get off the bus and walk along the street to see the charming shops NEXT TO the historical buildings.

Finally, we end the tour at the Curitiba Street Food Stands that are ON THE RIGHT side of Rua XV de Novembro, to taste the delicious traditional food.

Thank you for joining me on this tour!

### Ejercicio 5 (pág. 57)

#### Script

*Hello, welcome to The Natural World. Did you know that our planet has different natural landscapes?*

*The ocean is deeper than the sea.*

*The sea contains salt water and is larger than a river, which has fresh water.*

*A rainforest is more humid than the desert, and the desert is hotter than a beach.*

*In addition, a mountain is higher than a hill, and a glacier is colder than a waterfall.*

## EPISODIO 3

### Ejercicio 4 (pág. 61)

#### Script

In Monte Caseros, Corrientes, we met at school

Mía, Nicole, Tabaré, and Alex, our bond took rule

We were in 3rd year, our minds started to explore

We joined the Mercosur Science Fair, and our dreams soared.

Everybody wants to change the world

We are just some teens around the globe

Everybody wants to make a difference, oh

We found our place, our passion, our goal.

Mía posted on social media, Nicole sang her song  
Tabaré loved nature, Alex played video games all day long  
We traveled to Buenos Aires, for the InterCollege Competition  
Our project shone, we won first place, our hearts felt elation.

Everybody wants to change the world  
We are just some teens around the globe  
Everybody wants to make a difference, oh  
We found our place, our passion, our goal.

We visited a sustainable farm, learned about the earth  
Our project won, we felt our worth  
We went to Curitiba, the first sustainable city  
We saw the future, our dreams felt pretty.

Everybody wants to change the world  
We are just some teens around the globe  
Everybody wants to make a difference, oh  
We found our place, our passion, our goal.

We shared great moments, lived wonderful experiences  
Our friendship grew, our bond never breaks  
We are just some teens, but we made a change  
Our project won, our hearts still range.
